

RE: NAB's petioin 04-160, let it be know that I fully support Satelllite Radio such as XM radio, even if a fee is involved. To limit the stations or types of programs that XM or other Satelllite competiion allows for is rediculous. I want a station that is just Weather and or traffic and nobody should be able to block what and where I want to hear it! VOTE NO for NAB's petition 04-160.
